EDUCATION

Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Technology in Computer Science and Engineering

Uttar Pradesh, India

Aug. 2023 – June 2027

PROJECTS

StudyMate - AI-Powered Learning Platform | React, Node.js, MongoDB, Google Gemini AI

Jan 2024

- Built full-stack AI study platform with quiz generation, AI tutor chatbot, and document upload features
- Implemented JWT authentication, dark/light mode theming, and session management for 500+ users
- Integrated Google Gemini AI for intelligent quiz generation from uploaded PDFs with 95% accuracy
- Deployed on Render with MongoDB Atlas, achieving 99% uptime and responsive UI across devices

HavenTo - Accommodation Booking Platform | React, Node.js, MongoDB, Express

Sep 2023

- Developed production-ready booking platform with OTP email verification and session-based authentication
- Implemented enterprise-level security: DDoS protection with rate limiting, Helmet.js security headers, CORS
- Built image upload system with Multer, favorites functionality, and dual user roles (Guest/Host)
- Deployed on Vercel and Render with environment-based configuration for production scalability

TECHNICAL SKILLS

Languages: C, C++ (Data Structures & Algorithms), JavaScript, HTML/CSS, SQL

Web Development: React.js, Node.js, Express.js, TailwindCSS, Vite

Databases: MongoDB, MySQL

Data Science & ML: Python, Pandas, NumPy, Matplotlib, Seaborn, Machine Learning

Security: DDoS Protection, XSS Prevention, Rate Limiting, Helmet.js, CORS, bcrypt

Developer Tools: Git, GitHub, VS Code, Postman, npm, Linux

Cloud & Deployment: Render, Vercel, MongoDB Atlas
